This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

GENERAL INDEX

TO THE

NATION

VOLS. 31-40,

Oct., 1880—Oct., 1885.

BY

W: M. GRISWOLD, A. B. (HARVARD).

BANGOR, MAINE:
Q. P. INDEX, PUBLISHER.
1885.

H

INDEX TO THE NATION.

In this INDEX, the figures at the left of the decimal point indicate the volume; those at the the page. Names of persons in italics indicate that they are treated in their professional cap The letter w indicates that the figures following refers to reviews of works *on* the subject ind *w*, to reviews of works *by* the same. A * signifies that the work to which reference is m: illustrated; §, that it is travel; ‡, that it is poetry; ✓, that it is fiction; ¶, that it is a transl: ‖, that it is history or biografy; **, letters or autobiografy; ††, art; ‡‡, religion; §§, relat the stage; ‖‖, to natural science; ****, anecdote or incident.

A † indicates an obituary notice.

A * after figures (e. g., 35.200*) indicates that the article is "special" correspondence;—* it is occasional correspondence.

In looking for review of a book, if not found under author, look under subject.

A great work for readers and students, in enabling them to refer, at a minimum expenditure of time and trouble, to multiform and extensive sources of information on almost every conceivable topic, has been accomplished in the preparation of the so-called "Q. P. Indexes." By an ingenious though simple system of abbreviation and contraction, the contents of each of these publications for a long series of years is so summarized in small space that it takes but a moment to turn to everything that has been printed on any subject that has been discussed in their pages. WE DO NOT SEE HOW THE WORK COULD BE BETTER DONE.—*Country Gentleman*.

The Q. P. Indexes: "Each of which," according t
INDEX to ESSAYS (No. 13), Dr. S. A. Allibone says
want that has long been felt and often expressed; and th
ceive that the works included, some 700 or 800, have be
'Essays.' . . Examination shows it to be invaluable
given to the most important essays. . . The mode o
literary workers."—*The Bookseller* (London), 4, 10, 188

Some very quiet but most valuable work is being done in what are known as the "Q. P. Indexes." They are invaluable to every literary worker, and have gained approval abroad, the *Oracle*, London, having lately given a full description of them:— "In America is published yearly an index to the principal magazines, from which you may learn, for instance, . . . Small marks show whether an article is a review, poetry, fiction, illustrated, a translation, or whether it may be characterized in half-a-dozen other different ways. . . . Why does not one or another of those who are constantly asking us how an income may be made or added to, do a similar service for English magazine readers? Chief qualifications for the work are perseverance, accuracy, and that uncommon endowment, common sense. Let some one possessing these send to Bangor, Maine, U. S., for a copy of Q. P. Index's Annual for 1881 as a pattern, and then set to work on some English periodicals. Poole's Index to all periodical literature will not supersede such works as Q. P. Index's." *Our Continent*, 1, 11, 1882.

You are doing a good work for every library or professional man who has for years accumulated any of the leading periodicals in anything like completeness. In my own case, you have not only removed all temptation to dispose of a large collection of periodicals to the second-hand dealers, because there was so much labor in making them available, but you have placed in my way the temptation to complete some sets to which I have been a subscriber for years.—*Rev. E. S. Frisbee, President, Wells College.*
